PREMIER
CHEERFUL

*Refers to War as
of the Past.*

Claims That Empire Has Gained by It.

*No Weakening in the Matter
of Peace Terms.*

**Promises Generous Treatment
of Boers When They Lay
Down Arms.**

(BY THE NEW ASSOCIATED PRESS—A.M.)

LONDON, May 7.—[By Atlantic Cable.] The Premier, Lord Salisbury, as president of the annual Grand Habitation of the Primrose League and

Albert Hall, today spoke to an immense audience in a much less pessimistic vein than when he was last heard in public. He congratulated the league on the staunch support given to Conservative governments, one result of which was that Great Britain was now supreme in Egypt, while with regard to Ireland, the country need no longer

At the same time, he said, the country must not expect "the ashes of past conflicts" to be extinguished immediately. Great Britain had had a great and serious war; but admitting that

"We have suffered," continued the Premier, "but we have won." It was impossible not to feel that

the efforts of the people of the country have, in some cases, not been worthily recognized. The other day Mr. Morin asked if there was a single member of the Cabinet of 1890 who, if he could have foreseen the results of the policy on which they were then launching the country, would not have checked the diplomacy leading to such

deplorable results. As a member of that Cabinet, he (Lord Salisbury) wished to meet the statement with the most indignant denial. The war had been used by some politicians for the purpose of injuring their opponents. When a neighboring power or tribe invaded His Majesty's dominions "and made an attack which was a gross and

Turning to the peace negotiations, Lord Salisbury announced that "Great Britain has not receded one inch from her former position. As to rights we claimed, and the claims we insisted."

The Premier repudiated the assertion that Great Britain was weakening on the subject of the peace terms. He declared the country could not afford to submit to the suggestion that affairs should be allowed to slide back into a

position where it would be in the power of the enemy when the opportunity suited him, to renew the issues for which this country had fought during the last three years.

When the conflict was over all possible would bedone to mold their present opponents so they could take up their position in the empire, which had

conferred so many blessings on the human race. But it must be thoroughly understood that the whole government of the country was to be of such character that it would be impossible that the struggle could be renewed. It was important that this should be made clear, for some people thought the empire might become tired. He did not

the might become tired. He did not wish to convey the idea that there was any feeling of bitterness toward the Boers, for there was nothing the government more earnestly desired than that they should enjoy all the privileges conferred on their brother nations by the colonial system.

Y THE NEW ASSOCIATED PRESS—A.M.]

LONDON, May 7.—The wife of Gen. Lucas Meyer, the commander of the Orange Free State forces, who is in this country, received a cable message from her husband yesterday saying that peace in South Africa was probable.

BOERS CAPTURED.

Y THE NEW ASSOCIATED PRESS—P.M.]

LONDON, May 7.—Lord Kitchener, reporting the killing of ten and capture of 208 Boers near Lindley yesterday, said that the British troops forming a continuous line, left the Frankfort, Heilbron and Vrededorf line at dawn without wheels of any sort and proceeded rapidly south, reaching the Rooststad and Lindley neighborhood with the result announced. The Brit-

casualties were nil.
The captured men represent the most
reconcilable Boers in the Orange
River Colony.
OKIEP RELIEVED.
BY THE NEW ASSOCIATED PRESS—A.M.
LONDON, May 7.—The town of
Okiep, Western Cape Colony, which had
been besieged since April 4 by a Trans-
vaal force, has been relieved.

force under Commandant Smutz, as been relieved by a British force under Col. Cooper. The garrison was in good health, and only a few of the Boers were wounded. The Boers retreated south.

TROUBLE BREWING IN CHICAGO.
CHICAGO, May 7.—The railway situation in Chicago took on a threatening

pect tonight when employes of the North and West Sides demanded that strike be called immediately, because one of their number have been discharged.

NO GROUND TO STAND ON.

Root Gives Democrats Sharp Thrust.

Vain Efforts to Hunt Out a Scandal.

Secretary Rests on General Order That Was Made by Abraham Lincoln.

WASHINGTON, May 7.—Secretary Root today submitted to the Senate an answer to the resolution of May 1 calling for copies of all orders issued by Gen. Bell relative to reconcentration in Batangas, and of the orders issued by Gen. Smith to Maj. Waller set up by the latter in his defense before the court-martial. The Secretary also asked to state whether these orders were approved by Gen. Chaffee or by the War Department when they were known in the department, and when countermanded.

In reply the Secretary submits two orders by Gen. Bell dated December 8 and 9 last, in the first Gen. Bell refers to the treatment of the natives, and to the use of internal machines, and to their constant violation of all the rules of civilized warfare. Therefore he declares that he is reluctantly obliged to avail himself of the right of retaliation under the regulations, and to deal severely with persons who commit acts denounced in General Order 100.

He says: "Against but one of these flagrant violations of the laws of warfare, namely, murder, has the United States government executed the penalties authorized by the sections of law above cited, in the vain hope that by their exercise of forbearance and generosity, the people might be conciliated, and become reconciled to, and convinced of the benevolent purposes of the government. Instead of having had the desired effect, however, this policy in the province of Batangas and Laguna has apparently failed to appeal to even the keenest and most appreciative intellects. On the contrary, it has been interpreted by many as an evidence of weakness and fear, and has been used by the natives to excite and foment rebellion, and to encourage the people to become more and more determined to resist the policy of the government."

The reckless expedients adopted by the army, especially the policy of intimidation and assassination, leave to the brigade commander no other means of protecting either the lives of his subordinates, except the use of force, or the interests of the government against the repetition of barbarous outrages, except the enforcement of the penalties authorized by the above-cited laws of war. . . . The brigade commander therefore announces for the information of all concerned that wherever prisoners or unarmed or defenseless Americans or natives, friendly to the United States government are murdered or assassinated for political reasons, and this fact can be established, it is his purpose to execute a prisoner of war under the authority contained in sections 45 and 48. This prisoner of war will be selected by lot from among the officers or prominent citizens held as prisoners of war, and will be chosen from among those who belong to the town in which the murder or assassination occurred."

The Secretary explains that the order referred to was approved by Abraham Lincoln, and that the orders mentioned in the resolution and in Bell's order of December 13 were in strict conformity with the letter and spirit of this famous order, which, he says, "was a contribution of great and recognized value."

Another order transmitted is by Maj.-Gen. Lloyd Wheaton, dated Manila, March 24, 1902, upon the condition of the natives collected in the concentration camps, from which it appears that they were well fed, healthy and contented. Gen. Wheaton expressed the belief that the natives would be broken up within sixty days. An important endorsement on this report is by Gen. Chaffee, in which he says: "It is useless for me to make an attempt to show the necessity for the course adopted in the third and sixth brigades to put out and to the activity of the natives in such a way that all persons will agree the right action has been taken. It is impossible for me to do this. I will state, however, that personal contact with the people, a knowledge of their methods and sentiments, a personal acquaintance with their territory and what may be done by an army as by troops, are all essential to determine what should be done before condemning what has been done. It is also necessary that some other method be suggested, and positive proof submitted that had it been followed more success correspondingly would have followed its adoption than would have been secured by the present course."

"I do not understand that the authority of the United States in these islands can be indefinitely disputed by armed forces without efforts to terminate the resistance to that authority. On the other hand I understand that all means which are justified by the laws of war are to be applied in such form as will meet and defeat the methods of warfare adopted by the enemy. Every case has been taken that people required to remain under military surveillance shall not unduly suffer for food, shelter or medical attention, if needed."

Secretary Root says that there is no reason to doubt that the policy embodied in the above orders was at once the most effective and humane which could possibly have been followed, and declaring that so indeed it has proved, he submits copies of the telegrams announcing the surrender of Marikina, the termination of organized resistance in the Northern Philippines.

The Secretary also submits copies of any order issued by Gen. Smith to Maj. Waller such as was referred to in the court-martial, and he encloses his orders for Gen. Smith's trial based upon newspaper publication as confirmed by Gen. Chaffee. He declares that all of Gen. Smith's written orders relative to Batangas already have been printed by the Senate, and that all are in strict conformity with general order No. 100.

In conclusion the Secretary submits dispatches from Gen. Chaffee of late date referring to the surrender of the insurgents and the reopening of the ports to trade as proof of the success of the policy embodied in the written order.

CHAFFEE GOES TO MINDANAO.

MANILA, May 7.—Gen. Chaffee called today on the transport Inez for the Llanos district of the island of Mindanao. Gen. Davis telegraphed that

he thought the presence of the Military Governor of the Philippines would have a favorable effect on the prominent Moros, and Gen. Chaffee immediately replied by going to Mindanao. He has ordered Gen. Davis to arrange a conference with the prominent surviving sultans and datos.

A post will be established at Camp Vickers, where the troops now are. Little information can be obtained concerning the movements of the Americans. Gen. Davis thinks only two or three amputations will be necessary, and that no deaths are likely to occur. Lieut. Jossman's case is now considered to be more serious than that of Capt. Moore.

Gen. Chaffee took with him a quantity of medical supplies and two doctors. He thinks there will be no more fighting unless the troops are attacked where they now are.

The ports of the island of Samar have been ordered to be opened to trade May 15.

Señor Valdez, editor of Miao, as a result of a second libel suit brought against him by Benito Legarda, the Filipino member of the United States Commission, has been sentenced to six months' banishment.

The cholera statistics to date are as follows: Manila, 2334 cases, 1605 deaths. Cavite, 621 cases, 666 deaths.

CONFIDES IN PRESIDENT.

SCHURMANN TELLS SCHURZ.

ITHACA (N. Y.) May 7.—President Schurmann today told the Legation of the United States, declining membership on the committee appointed to investigate the alleged Philippine atrocities.

President Schurmann said he felt that the conduct of the investigation and the vindication of the honor of the army could safely be left in the hands of the President, who, in his opinion, was the only one who could voice the sentiments and determination of the American people.

SUBMARINE BOAT PLANS.

Former Clerk of Union Iron Works Accused of Stealing the Original Blue Prints of the Holland.

NEW YORK, May 7.—George H. Peters and John H. Graham were arrested by city detectives today. Peters is charged with stealing the blue prints of the original plans of the Holland submarine boat, and Graham with attempting to sell the prints. Both men are said to have recently come from San Francisco.

According to the detectives, Peters was employed in a confidential capacity in the office of the Holland Torpedo Boat Company, and the Union Iron Works in San Francisco, acting as a stenographer and there stole the prints.

OBITUARY.

John Shorten.

DENVER (Colo.) May 7.—John Shorten, editor of the Cripple Creek Herald, and one of the best-known newspaper men in Colorado, died while sitting in his chair in the lobby of the St. James Hotel in this city.

Rev. Timothy McGuire.

CHICAGO, May 7.—The Rev. Timothy McGuire, pastor of St. Kevin's Roman Catholic Church, One Hundred and Fifth street and Tormore avenue, was found dead in a bathtub at the parish house today. Death had been caused by drowning.

TUG SINKS.

A LAUNCH.

Seven Sunday-school Students Drowned in the Maumee River.

NEW ASSOCIATED PRESS.—P.M.

TOLEDO (O.) May 7.—Seven young people, members of a Sunday-school class of the First Baptist Church, were drowned in the Maumee River, just below the city, tonight at 10 o'clock, as the result of the running down of the naphtha launch Frolic by the tug Arthur Woods, of the Great Lakes Towing Company's fleet.

The launch is owned by Joseph Hepburn of this city, who invited eleven young people to take an evening ride with him. They started out on a trip to Lake Erie early in the evening, and were returning when the accident happened.

Hepburn, Miss Clara Marks, Arthur Marks and Miss Grace Lowe are the only survivors.

Hepburn states that he saw the lights of the approaching tug, and, thinking it was bound straight down the river, turned to the east. When nearly abreast of the launch, the tug suddenly turned to the east in order to make the dock at Ironville, and before the launch could get out of the way it was struck by the tug, and turned over and sunk about 100 feet from the dock. Mr. Hepburn caught hold of the side of the tug, and Miss Lowe grasped his leg, and both were pulled on board the tug. The Marks girl was picked up from a cushion on which she floated. Arthur Marks was also fortunate enough to grab a piece of wreckage, and was picked up by those on the tug. The other seven members of the party were drowned, and the river is now being dragged for their bodies.

The dead are:

IRWIN SWAIN.

BESSIE LEISE.

EDNA LOWE, aged 19.

WILLIAM FANNER, aged 19.

BESS BYSCUM.

EULALIE RICKARD, aged 17.

GRACE HASPIN.

PITH OF NEWS FROM THE MIDDLE WEST.

CHICAGO, May 7.—[Exclusive Dispatch.] Cold northeast winds blowing off the lakes made Chicago seem colder today than it really was. The temperature remained at 60 deg. all day, and a warm sun beamed, but the cold wind was there, too, and made coats and heavy wraps comfortable. Temperatures at 7 a.m.: New York, 56; Boston, 60; Philadelphia, 54; Washington, 58; Chicago, 52; Minneapolis, 50; St. Louis, 56; Cincinnati, 50.

POTTER PALMER'S FUNERAL.

Over Potter Palmer's body today the last rites were held, the last song sung, the last prayer offered. His coffin now rests in the receiving vault at Graceland Cemetery, where it will remain until a mausoleum is prepared for its reception. Following the remains of this man, who had accomplished so much in the rebuilding of Chicago, there drove to the cemetery only the members of his family and the pall-bearers, chosen from those who had been most closely associated with his business and personal life. The other friends, who would have joined the train of carriages in its slow procession toward the grave, respected the wish of the family that the interment should be private.

BEATEN BY DESERTERS.

Lieut. H. E. H. King of the Twentieth Infantry at Fort Sheridan was terribly beaten in Wilmette tonight by deserters from the fort. He is supposed to be the lieutenant who was captured under arrest, when they assaulted him. He was badly injured internally, and is unconscious. The physicians believe he is fatally hurt.

The Rock Island road is negotiating for the purchase of the Chicago, St. Louis and Peoria line, with the purpose of making a new road, and also is planning a new line from St. Louis to St. Paul.

CHARGES AGAINST RAILWAYS.

Changes in the perfected injunction

bill against the packers charge the railways with giving discriminating rates that proved ruinous to cattle raisers not in the alleged combination.

REPUBLICAN WOMEN EXCITED.

SPRINGFIELD (Ill.) May 7.—Fraud, ballot-box stuffing, illegal registration of delegates and a false count of the votes cast were the charges made in the stormy and exciting convention of Republican women of Illinois, which assembled in the State house today. The delegates met to choose a woman to be presented to the State convention tomorrow as their candidate for trustee of the State University. Mrs. Laura B. Evans of Taylorville succeeded in defeating the incumbent, Mrs. Mary Turner Carriel of Jacksonville, for endorsement. The announcement of the vote of 265 to 80 precipitated vigorous protests and a spirited debate.

FALL DID NOT KILL.

CRYSTALL FALLS (Mich.) May 7.—[Exclusive Dispatch.] John and Nicholas Mattson and Nester Larson, miners employed in the Ardena mine shaft, fell a distance of 250 feet today, and all are alive and able to tell of their frightful experience. Beyond a broken leg sustained by John Mattson, severe cuts and a bad shaking-up endured by all of them, the men are apparently none the worse for the drop.

CYCLONE IN MICHIGAN.

ST. JOSEPH (Mich.) May 7.—[Exclusive Dispatch.] A cyclone swept over Central Michigan early this evening according to the meager reports received there, and caused fatal injuries to at least two persons and destroyed many buildings in its path. At Newton, Clinton county, Charles Barnhart and his son were caught under a barn, which collapsed, they were pinned to the ground by heavy rafters. The physician who examined them says that they will both die.

RAILROADS IN THE DEAL.

Oakland Takes a Two-to-One Victory.

Mannivan Was Too Good for His Team.

National, American and Western League Games—Racing on Eastern Tracks.

BY THE NEW ASSOCIATED PRESS—P.M. ST. LOUIS, May 7.—Poor base-running in the ninth inning prevented St. Louis winning out from Philadelphia today. Attendance 1900. Score: Philadelphia, 3; hits, 9; errors, 2. Batteries—Wyerker and Ryan; White and Doolin. Umpire—Cantillon.

PHILADELPHIA-ST. LOUIS. (BY THE NEW ASSOCIATED PRESS—P.M.) ST. LOUIS, May 7.—Poor base-running in the ninth inning prevented St. Louis winning out from Philadelphia today. Attendance 1900. Score: Philadelphia, 3; hits, 9; errors, 2. Batteries—Wyerker and Ryan; White and Doolin. Umpire—Cantillon.

AMERICAN LEAGUE GAMES. CHICAGO HAD TO WIN. (BY THE NEW ASSOCIATED PRESS—P.M.) CLEVELAND (O.) May 7.—Strodt's wildness and Cleveland's poor base running gave Chicago the victory. Bradley's fielding was a feature. Attendance 1820. Score: Cleveland, 4; hits, 9; errors, 2. Batteries—Strodt, Van Vliet and Bemis; Platt and Sullivan.

BOSTON-WASHINGTON. (BY THE NEW ASSOCIATED PRESS—P.M.) BOSTON, May 7.—Townsend's wildness and the visitors' miserable fielding lost the game for Washington today. Young was batted hard. Attendance 2279. Score: Boston, 12; hits, 12; errors, 4. Washington, 8; hits, 14; errors, 8. Batteries—Young and Criger; Townsend and Drift.

PHILADELPHIA-BALTIMORE. (BY THE NEW ASSOCIATED PRESS—P.M.) PHILADELPHIA, May 7.—Hustings kept Baltimore's bats scattered today, and was materially aided by brilliant fielding. The visitors had a batting rally in the last inning, but a double play prevented them from tying the score. Attendance 2504. Score: Philadelphia, 6; hits, 14; errors, 1. Batteries—McIntyre and Robinson; Hustings and Powers.

ST. LOUIS-DETROIT. (BY THE NEW ASSOCIATED PRESS—P.M.) DETROIT (Mich.) May 7.—Miserable support of Miller's pitch led to the game for Detroit. Miller scored both of Detroit's runs with his three-base hit to center. The St. Louis team played a snappy aggressive game. Attendance 2200. Score: Detroit, 2; hits, 6; errors, 5. St. Louis, 4; hits, 5; errors, 2. Batteries—Miller and McGuire; Harper and Sargent.

FITZ IN 'FRISCO. HOPES TO MAKE A MATCH. (BY THE NEW ASSOCIATED PRESS—P.M.) SAN FRANCISCO, May 7.—Robert Fitzsimmons arrived here tonight for the purpose of arranging a fight with Jeffries. Through his representative he said he expected to meet Jeffries tomorrow and hoped to conclude matters before night.

Fair Grounds Finishes. ST. LOUIS (Mo.) May 7.—Four furlongs. On the Quiet, Lady Churchill second, Sadie Mac third; time 1:01. Six and a half furlongs. The Benedict won, Killmarch second, Peter Duryea third; time 1:23. Five and a half furlongs. Zizi won, Tony Belle second, Hikolet third; time 1:08. Mile and seventy yards. Schwalbe won, Brace second, Glenwood third; time 1:45.

Six and a half furlongs. Father Wenker won, Our Lady second, Orleans third; time 1:22. Mile and a sixteenth. Salinda won, Brewer Schor second, Tea Gown third; time 1:50.

Morris Park Results. NEW YORK, May 7.—St. Nicholas hurdle, mile and a half, over six furlongs. Jimmy McGilbon won, Rowdy second, Semper Ira third; time 2:52.

Eclipse course, handicap. Gun Fire won, Swifts second, Bombrero third; time 1:10. Six and a half furlongs. Bellipse course. Mackey Dwyer won, Peter second, Oro Viva third; time 1:03. The Bouquet, five furlongs, selling. Sergeant won, Examiner second, Showman third; time 0:54.

Last seven furlongs of Withers mile. Lux Casta won, Sister Juliet second, Buy Lady third; time 1:27. Withers mile, selling. Royaster won, Satire second, Maroth third; time 1:42.

Card for Worth. CHICAGO, May 7.—Five furlongs. Joette won, King Dodo second, John C. King third; time 1:03. Six furlongs. Henry of Frantamar won, Big Injun second, Aaron third; time 1:23.

Five and one-half furlongs. Scorpio won, Bray Lad second, Peace third; time 1:12. One mile and three-sixteenths. Prince Mazen won, Ben Chance second, Maj. Mansir third; time 2:14.

Six furlongs. Haydon won, Ambrante second, Moderator third; time 1:23. Six furlongs. Henry of Frantamar won, Big Injun second, Aaron third; time 1:23.

Selling, seven furlongs. Chales won, Jessie Jarboe second, Lizzie A. third; time 1:23.

Making Strict Rules. NEW YORK, May 7.—Strenuous measures have been taken by the Board of Directors of the American Automobile Association to prevent excess of speed limits in endurance runs and violations of rules generally in open motor vehicle contests of all kinds.

Flanagan's Hammer Throw. NEW YORK, May 7.—In the annual field games of Fordham College, John Flanagan has equaled the world's record for hammer throwing. He hurled the metal 171 feet 9 inches.

Carbine Won Chester Cup. LONG BEACH, May 7.—Carbine won the Chester Cup, a handicap of 2550 seven furlongs for three-year-olds and upward, at the Chester meeting today. St. Aldegio was second and Sweet Sounds third. Sixteen horses ran.

Yale Golfers Beat Harvard. GARDEN CITY (N. Y.) May 7.—The Yale golf team defeated Harvard by a score of 12 to 5 today at the annual intercollegiate tournament on the links of the Garden City Golf Club.

Flash Run for De Plaisir. PARIS, May 7.—W. K. Vanderbilt's Flash was third in the race for the Prix de Plaisir at St. Cloud today.

of which turned into runs. Attendance 2300. Score: Chicago, 4; hits, 5; errors, 1. New York, 6; hits, 2; errors, 1. Batteries—Taylor and Chance; Matthews and Bowman. Umpire—Emalle.

RHEUMATISM CURED

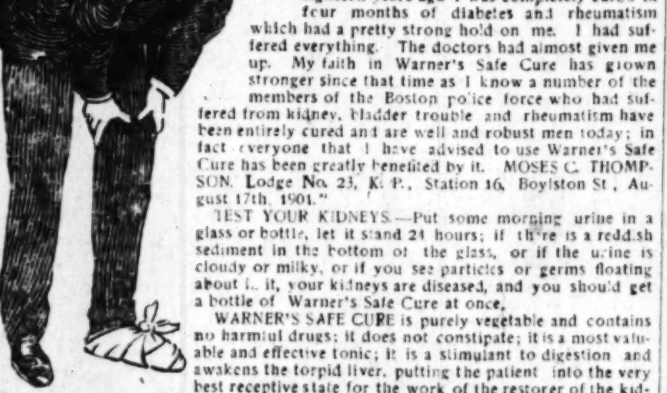

By Driving Out Uric Acid Poison from the System, Permanent Cure Can Be Effected. But First the

KIDNEYS MUST BE HEALTHY.

Rheumatism, Rheumatic Gout and All Forms of Uric Acid Poisons Are Results of Kidney Disease, and Can Only Be Cured by Getting Direct at the Seat of the Trouble, the Kidneys.

WARNER'S SAFE CURE

IS THE ONLY POSITIVE CURE FOR ALL DISEASES OF KIDNEY, LIVER, BLOOD AND BLADDER.

Mr. Moses C. Thompson, one of the best known police officers of Boston, says Warner's Safe Cure cured him of diabetes and rheumatism eight years ago and has kept him in good health ever since.

"Eighteen years' experience with Warner's Safe Cure ought to satisfy any one. About eighteen years ago I was completely cured in four months of diabetes and rheumatism which had a pretty strong hold on me. I had suffered everything. The doctors had almost given me up. My wife wrote the Warner Safe Cure Co. and I received a stronger since that time as I know a number of the members of the Boston police force who had suffered from kidney, bladder trouble and rheumatism have entirely cured and are well and robust men today; in fact everyone that gives Warner's Safe Cure has been greatly benefited by it. MOSES C. THOMPSON, Lodge No. 25, K. P., Station 16, Boylston St., August 17th, 1901."

YOUR KIDNEYS.—Put some morning urine in a glass or bottle, let it stand 24 hours. If there is a reddish sediment in the bottom of the glass, or if the urine is cloudy or milky, or if you see particles or germs floating about in it, your kidneys are diseased, and you should get Warner's Safe Cure at once.

WARNER'S SAFE CURE is purely vegetable and contains no harmful drugs; it does not constipate; it is a most valuable and effective tonic; it is a stimulant to digestion and weakens the torpid liver, putting the patient into the very best receptive state for the restorer of the kidneys.

It prepares the tissues, soothes inflammation and irritation, stimulates the enfeebled organs and heats at the same time. It builds up the body, gives it strength and restores energy that is or has been wasting under the baneful suffering of kidney disease.

WARNER'S SAFE CURE is now put up in two regular sizes and sold by all druggists, or direct, at

50 CENTS AND \$1.00 A BOTTLE.

Refuse substitutes. There is none "just as good as" WARNER'S SAFE CURE. It has cured all forms of kidney disease during the last thirty years. It is prescribed by all doctors and used in the leading hospitals as the only absolute cure for all forms of disease of the kidney, liver and bladder.

TRIAL BOTTLE FREE

To convince every sufferer from disease of the liver, kidney, bladder and blood that Warner's Safe Cure will cure them a trial bottle will be sent absolutely free to any one who will write the Warner Safe Cure Co., Rochester, N. Y., and mention having seen this liberal offer in the Los Angeles Daily Times. Our doctor will send medical book, diet, containing symptoms and treatment of each disease, and many convincing testimonials, free, to anyone who will write

MILLIONS OF GOLD IN NOME TUNDRA.

primary deposit could be traced to its source. It was found in a tunnel would undoubtedly be found.

PROSPECTING THE SEA. During the past winter Mr. Picard prospected the bottom of the sea in front of Nome. He also prospected it with a hand line last winter. This is what he found this winter: At a depth of 10 feet, 27 to the cubic yard; at 22, 12 to the cubic yard; at 30, 11 to the cubic yard; at 40, 10 to the cubic yard; at 50, 9 to the cubic yard; at 60, 8 to the cubic yard; at 70, 7 to the cubic yard; at 80, 6 to the cubic yard; at 90, 5 to the cubic yard; at 100, 4 to the cubic yard; at 110, 3 to the cubic yard; at 120, 2 to the cubic yard; at 130, 1 to the cubic yard; at 140, 1 to the cubic yard; at 150, 1 to the cubic yard; at 160, 1 to the cubic yard; at 170, 1 to the cubic yard; at 180, 1 to the cubic yard; at 190, 1 to the cubic yard; at 200, 1 to the cubic yard; at 210, 1 to the cubic yard; at 220, 1 to the cubic yard; at 230, 1 to the cubic yard; at 240, 1 to the cubic yard; at 250, 1 to the cubic yard; at 260, 1 to the cubic yard; at 270, 1 to the cubic yard; at 280, 1 to the cubic yard; at 290, 1 to the cubic yard; at 300, 1 to the cubic yard; at 310, 1 to the cubic yard; at 320, 1 to the cubic yard; at 330, 1 to the cubic yard; at 340, 1 to the cubic yard; at 350, 1 to the cubic yard; at 360, 1 to the cubic yard; at 370, 1 to the cubic yard; at 380, 1 to the cubic yard; at 390, 1 to the cubic yard; at 400, 1 to the cubic yard; at 410, 1 to the cubic yard; at 420, 1 to the cubic yard; at 430, 1 to the cubic yard; at 440, 1 to the cubic yard; at 450, 1 to the cubic yard; at 460, 1 to the cubic yard; at 470, 1 to the cubic yard; at 480, 1 to the cubic yard; Smarter Clothing Than Ever.

The best suits yet have just come. We can please you men folks as no tailor ever did. We do the fretting, thinking and fussing in choosing the stock. It's just the small matter of picking a suit that best becomes you from a hundred swell styles when you buy at Smith & Ennis. This New York clothing can afford to smile at the old fashioned ready made sort. It's as different as gold from brass. Smith & Ennis suits are fourteen karat from top to bottom. Prices \$15.00 up.

THE SHERWIN-WILLIAMS PAINT

gives satisfaction. No paint can give more. No man can expect more. S. W. P. is a satisfaction-giving paint. The materials that enter into it, the care with which it is made, the men who make it, everything connected with it, are of the satisfaction-giving kind. It never disappoints. Always does the work it is expected to do. Costs least. Does most. Color cards at

CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. Counterfeits, imitations and "just-as-good" are but experiments, and endanger the health of children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is Pleasant, it contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought

Bears the Signature of

Chas. H. Fletcher.
In Use For Over 30 Years.

THE SHERWIN-WILLIAMS CO., 150 SOUTH MAIN STREET, NEW YORK CITY.

Golly!

GHIRARDELLI'S GROUND CHOCOLATE is a good for cakes as for a beverage, and for a beverage it can't be equalled. It keeps fresh indefinitely in the hermetically sealed cans used only by Ghirardelli. It gives strength and preserves health for it is absolutely pure. Note fine flavor and fragrance. Don't let the grocer give you cheap imitations.

This signature is on every box of the genuine Laxative Bromo-Quinine Tablets. It's handy that comes in a box one can use.

SUMMARY OF THE DAY.

Nothing new in the number of deaths reported yesterday. The coroner's jury in the case of the woman who died of heart failure at the residence of her husband, Mr. J. H. Smith, yesterday afternoon, returned a verdict of natural death. The jury also found that the deceased had been suffering from heart disease for some time. The coroner's jury in the case of the man who died of heart failure at the residence of his wife, Mrs. J. H. Smith, yesterday afternoon, returned a verdict of natural death. The jury also found that the deceased had been suffering from heart disease for some time.

AT THE COURTHOUSE.

DETROIT AUBLE CALLED A BAD LIAR.

Strong Box Installed.
A specially-constructed strong box, which was ordered by the City Treasurer, was installed yesterday at the City Auditor's office. The box is made of heavy iron and is fireproof. It will be used to store the city's funds.

Revision Committee Meets.
Tonight the Charter Revision Committee will meet at the City Auditor's office. The committee will consider the proposed changes to the city charter.

Pay for Teachers.
The salary demands of the teachers will be ready for payment at the office of the City Auditor this morning.

GREENE CONSOLIDATED RAILROAD REPORTED SOLD—Rich Clean-up of Lower California Operator—Option Given on Bullion Mountain Mine.

S. P. GETS IT.
GREENE RAILROAD REPORTED SOLD.

LOCAL COPPER WORKERS.
T. S. Wadsworth, president, and Mrs. C. A. Hoyt, secretary and treasurer of the Denver group of miners, near Prescott, Ariz., have returned to Los Angeles from an inspection of their holdings. During their stay in the camp they had the pleasant experience of seeing the miners break into a fine body of native copper at the end of one of the 500-foot tunnels.

LOWER CALIFORNIA GOLD.
Seven bars of gold of various sizes, representing \$9480, with a fine sample of gold-bearing quartz of remarkable richness were temporarily displayed in a jewelry-store window yesterday. The bars represent a recent clean-up of the Aurora Consolidated Mining Company, operating in Lower California, which claims that it has a four-foot ledge of ore that carries high values in gold and silver, and that the rock similar to the large sample on exhibit assays \$2348.95 in gold and \$6 in silver to the ton.

OPTION ON BULLION MOUNTAIN.
An eastern man, whose name the company will not for the present make public, is reported to have taken a sixty-day option of the gold mines belonging to the Bullion Mountain Gold Mining and Milling Company. The property is located in San Bernardino county, and the price named in the option is \$2,000,000.

SAN FRANCISCO MINING STOCKS.
(BY THE NEW ASSOCIATED PRESS.—P.M.)
SAN FRANCISCO, May 7.—The official closing quotations for mining stocks today were as follows:

LOCAL SPORTING RECORD.
U. S. C. BALL PLAYERS.
LOST TO COMMERCIALS.

EXCITING TEN-INNING GAME OF MANY ERRORS.
BASEBALL GAME OF HIGH SCHOOL GIRLS' TEAMS—Billy Woods and Tremble to Box Preliminary to the Johnson-Jack Jeffries Fight.

THE COMMERCIAL HIGH SCHOOL BASEBALL TEAM DEFEATED THE UNIVERSITY OF SOUTHERN CALIFORNIA TEAM AT PIEDMONT PARK YESTERDAY AFTERNOON, IN A HOTLY-CONTESTED TEN-INNING GAME, BY THE SCORE OF 13 TO 12.

RECENT CALIFORNIA MAPS.
Reprints of three topographic sheets of parts of California have just been issued by the United States Geological Survey, and are now available. They are the Stanislaus quadrangle, covering part of the Stanislaus forest reserve, just north of the Yosemite National Park, and the region of the head waters of the Stanislaus River in the heart of the Sierra Nevada; the Downville sheet, also showing a section of the Sierra Nevada, and the waters of the North Fork of the Yuba River in Northern California; and the Red Bluff sheet, revealing the upper part of the Sacramento Valley near the town of Red Bluff and Redding.

WHAT YOU MAY SAY FOR EXTENSIVE IS IMPORTANT.
What you say for extensive is important, because it is the only one that is so important. It is the only one that is so important.

RECENT CALIFORNIA MAPS.
Reprints of three topographic sheets of parts of California have just been issued by the United States Geological Survey, and are now available. They are the Stanislaus quadrangle, covering part of the Stanislaus forest reserve, just north of the Yosemite National Park, and the region of the head waters of the Stanislaus River in the heart of the Sierra Nevada; the Downville sheet, also showing a section of the Sierra Nevada, and the waters of the North Fork of the Yuba River in Northern California; and the Red Bluff sheet, revealing the upper part of the Sacramento Valley near the town of Red Bluff and Redding.

WHAT YOU MAY SAY FOR EXTENSIVE IS IMPORTANT.
What you say for extensive is important, because it is the only one that is so important. It is the only one that is so important.

THE CITY IN BRIEF.

NEWS AND BUSINESS.

Direct Legislation Promoted.

The Temple Brotherhood has issued a call for a meeting at room No. 107, Potomac Block, tomorrow evening to form plans for organizing a league to promote direct legislation in California.

His Condition Serious.

The man who was struck by a traction car at Third and Los Angeles streets Tuesday night recovered sufficiently at the Receiving Hospital yesterday to say that his name is John Odell. He was removed to the County Hospital. His condition is serious, and he may not recover.

Special to Bakersfield.

About seventy-five representative business men of Los Angeles left last night at 10 o'clock on the Chamber of Commerce special train of three Pullmans to take in the Bakersfield Fair. Everyone of the number was armed with a tin horn, and Arcade Depot was noisy with their tooting.

Annals of School Pickle.
The trustees of the Annals school district, located just outside the city limits, adjoining Garvanza, have arranged for a general picnic and reunion for the district and friends to take place tomorrow at 10 o'clock. County Superintendent J. B. Strine, Deputy District Attorney Wilbur and others will participate in the programme, to be followed by a basket dinner.

Died in Arizona.

Capt. J. T. Willoughby is dead in an Arizona hospital, having died of the rank of captain in the British army and served through some of the severe campaigns in Africa under Gen. Kitchener. He also had experience in the Philippines. He went to Arizona from Los Angeles some months ago, a sufferer from lung trouble, and finally succumbed to the dread disease.

Dragged Two Blocks.

Richard Prendergast, driver of a mail wagon, was almost killed in a runaway accident yesterday afternoon at First street and Commonwealth avenue. He was thrown almost out of the wagon. His foot caught between the brake and the wheel and he was dragged 200 yards. Detectives stopped the horse and released Prendergast, whose injuries are not serious.

Wheelman Run Down.

Ray Banks, who lives at No. 728 South Figueroa street, and is a clerk in E. C. Peters' grocery, No. 328 West Seventh street, was severely injured last night on Seventh street near Grand avenue. He was riding his wheel between the car tracks and because another wheelman failed to turn out to let him pass he was run over and thrown across the rails. As he did so a car struck him, throwing him from his bicycle. He sustained a fracture of the left forearm and a laceration on the back of the head.

Child Terribly Burned.
Annie Kalschtein, aged 8, was so seriously burned by the explosion of a gasoline stove at No. 224 Enterprise street last night that she may be confined to her bed for weeks. If she inhaled the fumes she probably will not recover. The girl was lighting the stove to prepare a meal, her mother being busy with a sick child. The girl's clothing became ignited from the explosion, and she ran screaming from the house. A man who happened to be passing threw her to the ground and wrapped her coat about her, smothering the flames. Her back and lower limbs were blistered and both hands burned.

BREVITIES.

The Dental Department of the California Medical College, 175 North Spring street, is open day and night. Estimates cheerfully given on all dental work. Reasonable rates and all work guaranteed.

Keramic Club Exhibit. Last day of Ceramic Club exhibit at Ebell Clubhouse, near 7th and Broadway. The public invited.

Fine cabinet photos reduced to \$1.75 per dozen. Sunbeam, 228 S. Main. Pattern hats reduced in price. Spring Millinery Importer, 121 South Spring st.

Dr. E. A. Clarke, 524 South Broadway, Residence Van Nuys Broadway.

Dr. Carradine preaches at Peniel Hall today, 10 a.m. and 7:30 p.m.

Dr. R. F. Clark, 253 South Broadway, surgery and diseases of women.

Infants and children's outfits made to order at 310 South Broadway.

Will Miss Annie Sanborn please call at 124 West Fourth street?

Camp Swanfield, Catalina Island, is now open for business.

There are undelivered telegrams at the Postal-Telegraph Cable Company, No. 228 E. Spring street, for H. H. Kirkpatrick (2) and Mrs. A. B. V. H.

There are undelivered telegrams at the Western Union telegraph office for H. H. Baldwin, Dwight H. Kargwin, T. H. Newell, Annie Lee, Frank Kallios (2) W. A. Boeck, A. B. Nye, Glen E. Stuart, L. E. Soren, E. E. Blawie, Lewis Ellison, Mrs. Reckhardt, Dewey Atkins, Miss Ella Cannon, Al. Hulse, J. W. Wray, C. W. Begie, Mrs. B. J. Miller, Mrs. E. Allen, W. C. Campbell.

WRECK IN TOPEKA.
Extra Freight on Union Pacific Runs into Stock Train Killing Two Men and Injuring Seven.

BY THE NEW ASSOCIATED PRESS—A.M.
TOPEKA (Kan.) May 7.—During the heavy fog this morning at 2:10 an east-bound extra freight train on the Union Pacific ran into freight train No. 14 at a crossing in North Topeka, causing a bad wreck and killing two men and injuring seven others.

ALMIE CANDLESS, stockman, Natoma, Kan.

JOHN PARKS, Manhattan, Kan. Injured.

H. W. KUEKER, Miles, Kan. badly cut.

J. E. FIELDS, Hoxie, Kan.

JOHN BUZZARD, Bellevue, Kan.

JOHN HAMMERLAND, St. Marys, Kan.

ED ARNOLD, Chapman, Kan. Injured internally.

JOSEPH HUBERT, Cheyenne, Wyo. Internally injured.

GEORGE FORD, Wamego, Kan. Train No. 14 had stopped at the crossing as usual. Just as it was starting up the extra came in sight, running at the rate of forty miles an hour. Engineer Zimmerman of the extra did not see the lights of the train approaching, until it was within a few hundred feet. The engine of the extra crashed into the caboose of No. 14, splitting it completely in two. All the injured are stockmen going east with cattle.

MIGHTY TASKS.
Edward Everett Hale Points Out Duties of the Twentieth Century Belonging to Civilized Nations.

BY THE NEW ASSOCIATED PRESS—A.M.
CHICAGO, May 7.—Rev. Dr. Edward Everett Hale of Boston has delivered a lecture before the Twentieth Century Club on the "Duties of the Twentieth Century." These duties, as Dr. Hale saw them, resolved themselves into five, which he proceeded to explain and urge.

The first of these was the construction of a four-track railroad from Lab-

rador to Patagonia. This was necessary to keep the human family from being "squeezed together" to much. The next great duty of the century, Dr. Hale said, was the construction of a similar railroad line across Europe and Asia from the Atlantic Ocean to the Pacific Ocean with a branch road to Odessa. This was necessary to open up Siberia to the "much squeezed" populations of eastern countries. 750,000 of whom would be seeking settlement in this country the coming year. It would also serve to divert 100,000 Russian Jews who wished to settle in this country from their purpose, and locate them in the land of their ancestors.

The third duty of this century, the speaker said, was to construct another railroad, in pursuance of Cecil Rhodes' idea, from the Mediterranean to the Cape of Good Hope. The fourth duty was the faithful treatment of the race question as presented by the negro, the Indian and the Chinese.

The last duty was the advocacy of the doctrine of universal peace.

BAKERSFIELD.
ELKS' FUNNY SHOW.
SPECIAL CORRESPONDENCE OF THE TIMES.

BAKERSFIELD, May 7.—The Elks were the feature in the carnival today, turning out at 3 o'clock this afternoon in a "circus" parade that took the town by storm. It was a funny turn-out, a mile long, and resembled a real circus parade in some respects. There were a score of grotesque clowns, a callopo, animals in cages, and hundreds of horseback riders. The crowd that packed the streets along the line of march is estimated at over 5000. Alfred Gibbets sustained a broken leg by his horse falling on the cement sidewalk, and this was the only accident. Tomorrow will be an industrial parade.

AT NEW YORK HOTELS.
NEW YORK, May 7.—[Exclusive Dispatch.] At the Waldorf, C. W. Grimes, at the Herald Square, C. G. Swist, at the Grand Union, C. G. Swist.

MARRIAGE LICENSES.
Following are the marriage licenses issued yesterday from the office of the County Clerk:

Fred W. Becker, aged 33, a native of Wisconsin, and Lizzie Copp, aged 15, a native of Missouri; both residents of Los Angeles.

Will E. Seely, aged 40, a native of Iowa and a resident of Santa Barbara, and Ida C. Anderson, aged 23, a native of Indiana and resident of Alhambra.

Elario Boneros, aged 21, a native of Mexico, and Virginia Romero, aged 25, a native of California; both residents of Pomona.

Elton G. Donaldson, aged 39, a native of Illinois, and Carrie A. Porter, aged 24, a native of Illinois; both residents of Los Angeles.

Archibald R. Penfield, aged 24, a native of Michigan, and a resident of San Francisco, and Mary E. Davis, aged 22, a native of California and a resident of Los Angeles.

Jake Green, aged 33, a native of Texas, and Lillie Pulleylove, aged 25, a native of Texas; both residents of Los Angeles.

Lincoln W. Hedge, aged 39, a native of Illinois, and L. M. W. Hedge, aged 31, a native of Colorado and a resident of Denver; both residents of Los Angeles.

Randolph L. Gallagher, aged 45, a native of Indiana, and Anna L. Randolph, aged 35, a native of Iowa; both residents of Tama, Iowa.

Factory Purchase of Boys' Clothing.
\$3000 Worth Bought at 67c on the Dollar

Every mother of boys in Los Angeles will have a chance today to buy clothing at prices that seem quite out of reason. Our Eastern buyer has secured more than \$3000.00 worth of the handsomest boys' suits which will be sold at almost half actual worth.

Special Sale Commences This Morning.
This clothing, aside from the extraordinary prices, is strong, handsome, well made, serviceable, and just the kind best suited to the little man. Whether or not the boy already has his Spring suit such a chance as this shouldn't be neglected.

Bat and Ball Free.
In spite of the remarkable price at which these special factory suits will be sold we will continue our policy of presenting each boy with a handsome first class bat and ball with every purchase of a suit.

LOT NO. 1.
\$3.00 Boys' Suits \$1.67
This lot includes two piece and vestee suits for the little fellows in hard twisted chevrons, also many other attractive styles to fit boys from 3 to 16 years old. Only 149 suits are in this lot. Your choice of any while they last at \$1.67.

LOT NO. II.
\$4.00 Special Boys' Suits \$2.29
In this lot are two piece cheviot suits in handsome gray mixtures, ages 8 to 12. They are guaranteed all wool by a forfeit of \$100.00 if the least speck of cotton be found. Handsomely made, and just the thing for boys' wear. While the factory lot lasts, your choice \$2.29.

LOT NO. 3.
\$5.00 Special Boys' Suits \$2.96
You'll wonder how such suits could be put together, and sold at anything like so extraordinary a price. In the factory lot are nobby two piece suits, blouse suits and many other new and desirable styles. Materials are cheviots, cassimeres and serges, sizes to fit boys 8 to 16 years. 354 suits altogether. Your choice of any \$2.96.

Boys' Furnishings.
As almost every mother knows, we carry the largest stock of boys' furnishings in the southwest. Three minutes spent in looking about the department will convince you that here is the place to buy your boys' goods. We invite mothers to make themselves at home and inspect the goods.

Rarest Draperies.
Rep Portieres, Gobelin Tapestries, Bagdad Portieres, Rope Portieres, Oriental Curtains, Arabian Curtains, Dentelle-Arabian Curtains and Drapery Stuffs.

Rare new sorts of portieres, drapery materials and lace curtains are attracting attention to our drapery department. We have undertaken to provide materials which are uncommon and are to be found in no other Los Angeles store.

The new rep portieres trimmed with applique are in great favor among those who have artistic homes. Prices range from \$11.00 to \$40.00 a pair.

The Dentelle-Arabian curtains are the newest in the lace curtain line. They are different from the other sorts and are most appropriate for living room, parlor and library curtains. Prices range from \$6.00 to \$65.00 a pair.

Our exclusive drapery room is so called because it contains exclusive goods; styles which can be found in no other store; the very finest and richest of materials suitable for made-to-order draperies.

Weakness in Men

The success of my French method of treatment in curing weakness in men and these functional disorders due to an inflamed condition of the nerves of the reproductive system, which is usually occasioned by improper treatment of contracted disorders, excesses, and to self repeated excitement, is secured from the fact that these weaknesses yield completely in a few weeks and the organs are made strong and healthy.

VARICOCELE CURED

By the Painless French Method
DR. GREGORY'S FRENCH METHOD of curing varicocele is superior, quicker and more successful than any other. It brings tone and strength to the flabby blood vessels, thus restoring the normal condition of the reproductive system, and the organs thus affected take on a healthy condition immediately. This is a special feature of the French method.

WATER SUPPLY RUNNING LOW.

Reserves Were Called Upon Yesterday.

Talk of Stopping the Street Sprinklers.

Rushing Work on City's New Tunnel—More Water Forthcoming.

Los Angeles is a spendthrift, not of gold or silver or diamonds, but of water, more precious than all.

While the supply of water from the river is ample for some time to come if used conservatively, the city has now reached a crisis.
Yesterday, for the first time, the consumption exceeded the maximum supply. The reserve of 50,000 gallons in the various reservoirs of the city was called upon to supply the demand, and a perceptible impression was made on this body of water. It is estimated that 500,000 gallons in excess of the river supply, was used yesterday.

At noon Superintendent Mulholland had a conference with Mayor Snyder at which the advisability of stopping the street sprinkling for a few days, if the warm weather continues, was discussed.

Los Angeles yesterday consumed practically 35,000 gallons of water, or a per capita consumption of nearly 300 gallons. The maximum surface flow of the river diverted into the domestic water pipe was 35,000 gallons. The main supply ditch which supplies the parks carried about 1,500,000 gallons. In case of emergency this supply could be turned into the domestic water pipes, but the parks would suffer greatly in consequence.

There is a remedy for the present condition of affairs, and it is only a question of time when it will have to be tried, according to Superintendent William Mulholland, who knows more about the actual conditions of the water supply than any other man in the city. The waste of water will have to be stopped and the supply conserved.

METERS MUST COME.
Meters have to be introduced. Superintendent Mulholland yesterday declared that this is the only remedy available.

"I would not unduly alarm the people of this city, neither would I keep them ignorant of the situation," he said. "There is water enough if it is used carefully. The only way to conserve the supply is to provide a check on the use of water. To be cautious this check must reach the consumers' pocketbook and the meter is the approved method. Eventually the meters will have to be generally introduced in this city, and I see no need of keeping this information from the people to the end that they may have a sudden surprise some day."

Washington, Buffalo and Philadelphia are the three cities in the United States where the per capita consumption is greater than in this city. Milwaukee and Cleveland formerly had much greater per capita consumption. They were confronted with much the same problem. Meters were introduced on nearly 300 to 410 gallons per capita. In Cleveland the meters were introduced on 60,000 taps, and the per capita consumption was reduced from over 300 to 110 gallons.

"At the outset the introduction of meters will be very unpopular," declared Superintendent Mulholland. "Those in the department who are not ready to read out of the positions they hold. Every man will think he should be the last to have a meter applied. There will be a great hue and cry of favoritism, undoubtedly, when it is decreed that the large consumers of water must submit to the meters. However, those who are posted on such matters have seen the handwriting on the wall long before a large proportion of meters will have to be used."

One of the main reasons why the Los Angeles City Water Company finally submitted to the compromise was the evident necessity of developing more water or applying the meters. To force the citizens to endure a shortage of water would ruin to their cause, the company well knew. To commence extensive development work was, to say the least, a precarious expenditure of money, in view of the litigation in which the company was involved. To propose the universal use of meters was to invite a similar stage last summer, Superintendent Mulholland, then the chief engineer of the water company, advised that one or two things must be done. Either the company must develop more water or must secure such legislation as would conserve the supply. The only way to steer clear of this Scylla and Charybdis was to sell to the city. Acting on the advice of the engineer, the company agreed to consider the proposal made by the city. Otherwise the legal battle would still be raging.

MINING FOR WATER.
Under the shadow of the Elysian Park hills just north of the Buena Vista street bridge the city is mining for water. Under the direction of Superintendent Mulholland a shaft has been sunk to a depth of 110 feet. It is a round hole 11 feet 4 inches in diameter. At the bottom is a large mine, a sinking pump, which keeps the water out of the shaft. The black shale is hoisted in huge buckets by a windlass and wire cable operated by a small surface engine. Now and then one is startled to see the bucket come flying from the black depths with a load of human freight. Working in the hole is so trying that the men are only two feet more to deliver before the bottom of the perpendicular shaft is reached. The bottom will then be 112 feet below the top of the river rim, and 110 feet above sea level. At this depth a large infiltration gallery 6 1/2 feet high by 5 feet wide will be started on a vertical plane. It will extend almost due northeast for half a mile, and will completely cross the narrow water channel of the San Fernando Valley. The gallery will tap the underground flow of the river, and it is hoped by Superintendent Mulholland that a maximum flow of 5,000,000 gallons every twenty-four hours will eventually be obtained. Two

years will be required to complete the gallery.

An evidence of the importance attached to the impulsive development of more water the work is being pushed night and day. Men are working in shifts and not an hour is lost in getting down to the supply of water that will be needed before many weeks have passed.

It is the present intention of Superintendent Mulholland and the Water Commission to prosecute the development work until August, when the necessity for the water will be so great that work will be stopped until the fall in order that the water may be used. By that time it is hoped that 2,000,000 gallons daily flow will be available. Yesterday about 40,000 gallons was flowing from the water pipe that extends to the bottom of the shaft. In a month this amount, it is conjectured, will be increased to 2,000,000 gallons daily flow.

Work on the infiltration gallery will necessarily be slow, as only three or four men can be employed on the heading at one time. Yesterday Superintendent Mulholland planned the heading at the bottom of the shaft, and made a final survey in expectation of the work on the gallery proper, which will begin today.

ANOTHER PUMP.
A new pump has been ordered. It will be a Worthington of the same general type as the one in use, but will have double the capacity. It is expected to pump 4,000,000 gallons every twenty-four hours. The old pump has just completed the phenomenal run of seven months without a single stop in the pulsations of the piston rod.

In the expansion of the water system which came as soon as the city assumed control, over ten miles of water mains, running from 10 to 30 inches in diameter, were ordered. This pipe, with the twenty-five miles of small laterals, will necessarily make some additional shafts on the water supply. However, the new pipe lines are intended mainly to insure better fire protection and will not represent the consumption of as much additional water as might be supposed.

Superintendent Mulholland declares that under the old water company the city had the cheapest water west of the Rocky Mountains, not excepting Portland, which has an unlimited supply, and a plant under municipal control. The water is not hard, having only 27 grains of carbonate and sulphate of lime in 100,000 parts.

Under the present system of water rates the police and fire departments have a heavy relative expense, while the rich man with wide expanse of lawn gets his supply much cheaper comparatively. The lower commercial meter rate fixed by the Council and fixed far too low many maintain—is 10 cents for 100 cubic feet, or 720 gallons. This rate is only given to large consumers, the rate running as high as 15 cents for the cubic foot, or 720 gallons.

"THE WOMAN OF IT."
When Pope said the proper study for mankind is man, he was not writing during Biennial week. Perhaps man had not then, in Pope's time, begun to realize how feminine and proper a study woman is. Woman, by reason of her education, her development, her faculty for detail, her femininity, presents a rarely complex arrangement of human attributes. She has hitherto been, not studied, but directed, through her elemental or love nature. Now, however, she realizes, and men realize that, though the elemental nature remains unchanged and unchanged in its power on her life and the life surrounding her, there are other ever-rounding characteristics that henceforth must be taken into account in the study of the woman.

Whether they will serve to increase her happiness is as yet a point for speculation. The club women believe that they will. There is a common saying which used to be delivered as a compliment and considered the clincher in all arguments pertaining to women. "It is woman's way," or that of the woman of it. That saying is modified. The modern woman will have none of it. "The idea," she says. "As if women were all alike! They are diverse and various."

But is it the question. A constant attendant at the Biennial must turn this interrogation over in his mind and try to solve the problem of the eternal feminine. Is not this eternal feminine a great compact electrical wave which sends its same currents through the hearts of all women? A few more volts to some; a 25-candle-power light to some. A No. 4 to others, but all from the same current.

The Biennial shows women from all parts of America, trained in different schools, reared in different atmospheres—met together in part to solve the problems of the present, and as so unlike themselves; and one of the great things they prove in their likeness to these same sisters. The undeveloped woman, the four-armed power, but she is of the same current as her thirty-two-power sister. Some of the most womanly and womanish of these visiting women are the press women. They are, generally, young, somewhat girlish in looks and manner, and they speak delightfully. They are alert, alive, human. Their experience has made them so. They have so thorough a realization of life. Their electric currents are in covered wires operated by the improved switchboard of their minds. The newspaper career has taught them the necessity of the switchboard to govern the currents which would otherwise destroy them.

At the theater this week, as well as at the Auditorium, woman reigns. She is a woman who tried to operate her currents without a switchboard. Poor Zaza! Just the same currents animate her being and direct the mentality of the press woman; yes, and rock the baby to rest in the arms of the home woman. Is Zaza a sinner because she is ignorant of the deadly nature of the elements within her? Is the self-controlled, well-balanced young woman who wields a pen, or the cultured club woman, the mother of a greater virtue than Zaza because she has provided herself, or the press woman, with a switchboard? The woman of it! Are women so different as the modern woman claims? Kipling has a wonderful ballad dedicated to "The Ladies," in which he says:

"Nobody never knew. Somebody told the Sergeant's wife. And later told 'em true." "For the Colonel's lady and Judy O'Grady. Are sisters under their skins." Despite all reasoning and denials "the woman of it" will endure. The mother and the club woman, the press woman by their united endeavors will have the effect of moulding the Zazas of the world into the harmony of true womanhood, and they will do it by love, for love is the "woman's way," and will be for all time.

MAY FESTIVAL BY WEE SUNSHINERS.

WHILE the grown-ups have been engaged with Biennial affairs, both legislative and social, the little people who compose the Golden Corner Branch of the International Sunshine Society have been busy arranging a delightful May festival and reception that was given at the home

all the work of the children. During the evening over three hundred people came to greet Mrs. Alden, who has since presented the branch with the Sunshine emblem, a shield about 3 1/2 feet tall, done in immortelles of yellow and white, the society colors. Mrs. Alden was entertained for her son, who was assisted by Misses William H. Whitesell, Leslie McClure, A. B. Cass, Bowditch Conner Worth, and Miss Carrie Bruns. The interesting programme included the following numbers:

"Waltz Brilliante" (Sattel), Miss Lulu Barker; vocal solo, Miss Grace Whitesell; reading, Miss Carrie Bruns; address on Sunshine work, Mrs. Cynthia Westover Alden; address by Mrs. Scroggs from Alaska.

Tableau, "Mistress Mary's Garden." Characters, Fairy Queen, Mildred McClure, Dora Rogers, Francis Williams, Elizabeth Brant, Ruth Reid, Erma Reid; Knights, Donald Whitesell, Charles Rogers, Harold McMillan, Charlie Griffin, Donald Cass, Donald Mather, Frank Mather, Walter Austin; Rustic Reel, Grandfather Charles Rogers; Grandmother Elizabeth Brant, Knights

THE QUEEN—MILDRED MCCLURE.

of the president, Master Charles Albert Rogers, No. 214 West Adams street, Tuesday evening. The proceeds of the entertainment, for which an admission fee was asked, were used to help establish a bed in Bethlehem Hotel Mission, and for the spreading of business at headquarters. The reception—the crowning glory of the evening—was an informal greeting to the dearly beloved organizer of all Sunshine bands, Mrs. Cynthia Westover Alden of New York City. In her honor the house has been transformed into a veritable floral bower, in the construction of which over three wagonloads of blossoms were used. In each room was a frieze of flowers, in the meshes of which were entangled marguerites, coreopsis, roses, ivy geraniums, California poppies, Shirley poppies, wild mustard, more roses, in fine, a rare "catch," such as can be seen only in California. The mantels were banked with flowers, and several Indian baskets of dried jarabeas held large bouquets of fragrant beauty. The walls of the entrance hall were decorated in the same manner, and the large blossom-laden net extending the length of the stairway. At the head of the hall a floral booth had been erected, in which were displayed, for sale, fancy articles and useful household notions.

CHURCH AND GRANDMA.
Charles A. Rogers and Elizabeth Brant.

and flowers; vocal music, Black Diamond Minstrel; vocal solo, Mrs. Beatrice Plummer; address on Bethlehem Mission, Rev. Dana Bartlett; "Miserere," from "Trovatore" (Verdi), "Shepherd's Boy" (Williams), Master Gordon Bartlett; tableaux, Knights, Master Mary, Lord Fine Frills, Flowers; recitation, Master Edward Clay; vocal solo, Erma Reid; vocal music, Bethlehem Glee Club; May-pole dance.

FIREMEN HAD TO MAN THE SPOKES.

ONE of the most tremendous runs in the history of the Los Angeles fire department was made yesterday.

The horses of engine company, No. 1, located in East Los Angeles, dragged the heavy old pumper three miles at a gallop to respond to an alarm turned in from Echo street and Avenue 50, Highland Park.

When the alarm came, it was a few minutes after 10 o'clock, and it was getting very hot. The horses had cleaned up and were lying around

the arroyo. It's something of a trick, mind you, to drive a heavy fire engine down a hill like that.

Then they went over the bridge and settled down for the long run where the street stretches level as a floor to Glen Head.

The old horses kept it up gamely with every nerve straining until they arrived at Sycamore Grove.

When they got to the shade of the old beer garden, the hose-cart horse gave out.

He stopped stock still, and grood there with his head down, his body

BACK TO HAND-TUB DAYS.

When the gong sounded, before the first signal had struck through, the veteran beasts were plunging from the stalls into the drop harness.

It came down with a snip snap, the driver pulled on the reins, and the doors new open. With a scramble, the team started and the old hooker rolled out into the street for the longest run of its history.

It went tearing down through the streets of East Los Angeles at a gallop. The hose cart came along behind, careening and bouncing like a ship in a squall.

away as he breathed, his heart tearing him to pieces with its furious beating. One could hear his breath as it came in gasping sobs for a block.

The fire-engine horses kept on to the hill. The road rises sharply just beyond the beer garden.

The team came to a stop a few yards up the hill. They were half dead from exhaustion, and could not pull another pound.

The firemen manned the wheels, and the hose cart came along behind, careening and bouncing like a ship in a squall.

SPIRIT AWAY THE DOCTOR.

Remarkable Tactics at Bible Institute.

Preacher Saved from His Admirers.

Famous Dr. Pierson Still Drawing Intense Throngs to His Lectures.

Dr. Arthur T. Pierson is too great a man to be flattered. Otherwise he would be wearing a hat several sizes larger than when he first arrived in Los Angeles.

The popular regard for him is so great, and the desire to take him by the hand so general that "it has become necessary to admonish the people, and then to spirit the great preacher away to avoid the multitude."

Yesterday, Bible Institute Hall was packed to suffocation, to hear his exposition of "The Crucifixion." He did not appear at the hall until all the preliminaries were over with, and in the mean time President Prichard had said to the waiting audience:

"Now, dear friends, there is one thing I want to speak about. When the meeting is over, don't stand around and talk and congratulate yourselves on the good things we are enjoying, but go home and pray for God's blessing upon our work. I fear too much is being made of the social features. Now, you will pardon me for speaking of this—it may seem discourteous to some—but I'm sure it is for the best."

After Dr. Pierson had delivered his address a number of persons went forward to greet him, and finally Rev. Joseph Smale took him by the arm, led him off into a side room and steered him out through another door and got ahead of the crowd and down onto the sidewalk.

It is quite remarkable that such tactics are necessary to protect a man in this day, who is simply preaching the gospel.

Dr. Pierson is a tanned worker, and the wear is very great. His physique is not that of a man who, from appearances, could stand much physical exertion. In addition to his stupendous mental activity, he is not a man to talk about where he has been, what he has seen or what he has done, but sticks like a leech to the gospel story.

This famous preacher, who has been in the world's most noted pulpits, is usually burning up with the business in hand. He is not a nervous man, but is intensely in earnest, and likes to waste in, without many preliminaries.

At a service, in which was principal speaker, held "not a thousand miles from Los Angeles," there were many things to be noted.

Dr. Pierson sat with closed eyes, the picture of resignation, until the programme worked its way through to what seemed to be the final solo.

He confidentially said afterward to a brother minister: "I began to wonder if I was to have a chance."

He said yesterday that he was not in sympathy with the idea of making the cross the universal symbol of Christianity, as the resurrection is a much more important fact. He believed the resurrection made belief in every other miracle easy and simple. One could not believe in the resurrection and believe any other portion of the scriptures.

It is just such talks as this that have drawn large audiences every day during the Festa season to hear Dr. Pierson, and the interest and excitement of the great Federation of Women's Clubs have not seemed to decrease the attendance.

He continues each evening this week at the First Baptist Church, and each afternoon at the Bible Institute Hall.

CHANGED ITS NAME.

The name of the "Church of the Neighborhood," which has been taken under the wing of Christ Episcopal Church, has been changed to the "Phillips Brooks Memorial; the chapel of Our Savior." The outlook for this mission is said to be very promising, and Dr. George Thomas Dowling of Christ Church will preach there on Sunday evening, taking for his subject, "Phillips Brooks—Everybody's Friend."

Blood Church Preacher, and What He Blood For." The church is located four blocks from Alameda street, at the corner of East Ninth and Wilson streets.

UNIVERSITY W.C.T.U.

A large and enthusiastic meeting of the University W.C.T.U. was held at the home of Prof. J. M. Roberts, No. 2148 Kingsley street, yesterday afternoon. A full report of the county convention, recently held at Pomona, was read, and a new interest has been awakened in the University Union.

ASCENSION DAY.
Services will be held this morning at 10 o'clock, in the First English Lutheran Church, corner of Eighth and Flower streets, in commemoration of Ascension Day. The subject of the discourse, by Rev. Herbert J. Weaver, will be "The Blessing of the Ascended Lord."

Mine Mule Commits Suicide.

A mule deliberately committed suicide by drowning in the Hoffman mine of the Consolidated Coal Company, near Prossburg, Md., yesterday.

The animal was hitched to a post in the mine, but broke away and ran down the incline to the water, the mine being partly flooded, and plunged in. All efforts of the driver to get the mule out were unavailing, and the animal stood in the water with its nose on the bottom until life was extinct.—[Baltimore Sun.]

No Calamity Talk There.
Fred Schmidt is a Henry county farmer who talked of wheat prospects to the editor of the Clinton Democrat the other day in anything but a discouraging strain. He declared that wheat in his locality to be at least two feet high and looking particularly fine. Schmidt was feeling good over a recent sale of 1000 bushels of his old corn at 25 cents.—[Kansas City Journal.]

YESTERDAY SPENT BESIDE THE SEA.

Two Thousand Biennial Visitors
at Long Beach—Closing Session
Tonight—Politics Still Brewing.

LAST evening's meeting at Simpson Auditorium marked the close of the sixth day of the Biennial, and today's proceedings will bring to an end the sixth convention of the General Federation of Women's Clubs. There was no business session yesterday, the delegates joining with many of the officers in an excursion to Long Beach, where the cars of the week were forgotten, and the ocean breezes freshened the spirits of the club women. At the art session last evening an address was made by Charles F. Lummis and the audience heard a paper by Nathan F. Barrett of New York. It was a day of recreation, during which the events of the convention were discussed, and the utmost interest was manifested in the report of the Nominating Committee, which at its meeting, Tuesday evening, placed the name of Mrs. Dimick T. S. Denison of New York at the head of the ticket which is to be voted today. The Colorado delegation persisted in advocating the candidacy of Mrs. Platt-Decker of that State for the presidency, saying they will nominate her from the floor of the convention this morning, and in the event of her declination, that they will back Mrs. James D. Whitmore of Denver.

Mrs. Lowe will preside at the business session at Simpson Auditorium this morning at 10:30 o'clock, and after the receipt of the report of the Nominating Committee the election of officers will be held.

At 10 o'clock p.m. an industrial problem session will be held at Simpson Auditorium. Miss M. Van Vleet, when papers will be read by Mrs. Frederick Nathan of New York, Mrs. A. O. Granger of Georgia and Mrs. Noble Prentiss of Kansas. Mrs. Florence Kelley of New York and Mrs. Lovell White of California will be chairman and assistant chairman, respectively, of the session.

A memorial service for the late Mrs. Jennie Cunningham Croly of New York, honorary vice-president of the General Federation, will be held at 2:30 o'clock, Mrs. Lowe presiding. Mrs. Denison will be in the chair. Addresses will be made by Mrs. Caroline M. Severson, California, and Mrs. Charlotte Wilbur, New York. The closing meeting will be held at 8 o'clock p.m., at Simpson Auditorium, with Mrs. Lowe in the chair. The president will deliver the biennial address, and the singing of "America" will end the convention.

Additional names of officers that will appear in the report of the Nominating Committee to be submitted at this morning's business session are as follows:

For corresponding secretary, Miss Louise Poppenheim, South Carolina; treasurer, Mrs. Emma M. Van Vleet, Iowa (incumbent); auditor, Mrs. George H. Noyes, Wisconsin (incumbent); directors, Mrs. Welden, Utah; Mrs. J. C. Carroll, Texas; Mrs. Humphreys, Kansas.

WEDNESDAY'S GATHERING BY THE SEASHORE.

CONVENTION CROWDS ENJOY AN
OUTING AT LONG BEACH.

Visiting Officers and Federation Delegates See Sights of Seaside City. Hospitable Reception by Citizens—Thousands of Excursionists.

"That's the best-looking women's crowd I've seen yet, and I've been here many a year," said one of the septuagenarians of Long Beach, as he watched the surging swarm of ladies in the park at the seaside city Wednesday afternoon.

This seemed to be the general opinion of the men of the beach resort, who lined up in force at the Salt Lake station to view the arrival of the fair excursionists of the federation.

The ladies of Long Beach went farther than this. They showed by their actions that they were honored by the visit of the club women, and they did the proud thing in the way of hospitality. They held out as glad a hand as any that have been extended to the convention workers in their sojourn in Southern California, and thereby heaped more laurels on the group, who have come to rest so lightly on the collective head of the women of the West. Long Beach had made preparations for the reception of a large number of visitors, but it was hardly thought that

there would be quite so general an acceptance of the hospitable invitation of the Salt Lake Route and of the people of the seaside resort. Twelve hundred persons were expected—400 arrived, and there was some lively scrambling to care for the additional thousands.

There was not a hitch, however, and the officers and delegates of the General Federation, who have been busy with convention matters for a week, seemed to enjoy the day's respite from care. First Street Station of the Salt Lake line was overrun with excursionists as early as 8 o'clock Wednesday morning, although 9:45 was the time set for the departure of the "official special," which was to afford free passage to the beach to officers and accredited delegates and alternates of the federation. Every street car that arrived was loaded with passengers, and as the time for leaving drew nigh the big depot platform seemed from the vast throng to be a moving mass of modish millinery and gay gowns. No one would think of wearing her best on a trip of this kind, but there was such a sort of pretty dress and stylish hats as to show that club life has not decreased woman's desire to appear at her best.

With the exception of the railroad officials and trainmen, and a stray husband or two, there was not a man in the crowd. It was distinctly "women's day" at the depot.

When the train of elegant new coaches was backed into position it was found that there was not room for more than half the crowd, and additional cars were added until a line of sixteen coaches strung out behind the engine that was to haul the train. Only then was there found to be room for the passengers.

TRAIN STARTS LATE.

The constant arrival of excursionists, and the delay due to the handling of so many persons, made it impossible to start the train on time, and it was 10:15 before the signal was given to start. Even as the train pulled out slowly several ladies rushed frantically forward and begged that they be not left behind. They followed on the regular train at 10:45.

The arrangements for the excursion were in the hands of Mrs. Omar H. Hubbard, chairman, and the members of the Excursion Committee of the Biennial Local Board, and they were ably assisted by E. W. Gillette, general passenger agent; his assistant, T. C. Peck, and J. L. Moore, city passenger agent of the Salt Lake line. Messrs. Peck and Moore accompanied the train to Long Beach, and did the handsome thing in caring for the passengers.

Two luxuriously furnished parlor cars, the finest on any road in the West, were attached to the rear of the train and were reserved for officers of the General and State Federations. Delegates, alternates and other passengers rode in the cars ahead.

The first incident of the trip was at Hobart, where a delay of nearly an hour was occasioned by the breaking of a coupling that had given way under the strain of the heavy load, and it was found necessary to separate the train and run it in two sections. No one seemed to mind the delay; there was much to be talked about in connection with the action of the Nominating Committee Tuesday night, and more than one political scheme was hatched during the stop.

STOP AT COUNTY FARM. The official special stopped at the County Farm, where a stop of fifteen minutes was made to permit the federationists to inspect the handsome grounds and buildings of Los Angeles county's institution for the care of indigent. E. S. Field, chairman of the Board of Supervisors, and the farm officials, extended the freedom of the place to the visitors, who picked oranges and flowers until their arms were full.

The ladies were much interested in the workings of the poor farm orange grove, the only one of its kind in which there is any record, and one in which charity and industry are combined in such a manner as to afford recreation and exercise for the inmates, as well as to return more than half the cost of maintenance to the county.

EXCITING INCIDENT. While the train was standing at Hobart, trouble was brewing in one of the parlor cars. Some one claimed to have found an interloper in the officers' quarters. Two or three women were hastily dispatched to the head end of the train for assistance.

"We want a man," they said, as they hurried through the aisles. "There is trouble in the parlor, and we must have a man to help us."

Vain was the search for a representative of the sterner sex, and the committee had passed through half a dozen cars. Then they saw "Tom" Peck, the passenger officer, who was picked up in an effort to get the train started.

"Oh, Mr. Peck," they said, "help us. There's a woman in the officers' quarters who is neither an officer, a dele-

gater nor an alternate. She must be put right off the train. It doesn't matter if this is away out in the country. She has no business there, and she won't budge for us. Put her off! Put her off!"

The gallant railroad man was in a predicament. He didn't see how he could go into that car and throw a defenseless woman out. It was a case that required diplomatic but heroic treatment, and as he started back for the scene of the difficulty he found himself cringing before the ordeal that was to come.

"How can I eject this woman," he said to himself, "I don't want to damage her hat or hurt her feelings, either in a physical encounter or in the use of the language that will be necessary to move her from her stronghold. I should have had a lady assistant for this task."

Before the man-seeking committee had returned to the parlor car, the difficulty had been adjusted satisfactorily. The woman, when she heard a man coming left the parlor car and transferred to the part of the train that was provided for other passengers, and to come.

AT THE SEASIDE.

ENTERTAINMENT FOR ALL. Old Sol was nearly straight overhead when the elegant train conveying the delegates arrived at Long Beach. A bracing breeze whistled in from Catalina way, and the dancing sea presented to many of the delegates their first view of the broad Pacific.

The Reception Committee, consisting of several hundreds of Long Beach people, was at the station accompanied by the Long Beach Band. The visiting ladies were escorted to the city

open as the headquarters of the Long Beach Hotel. A characteristic legend worked in pink, the Ebbel color, hung over the entrance, and the color scheme was executed in sweet peas and roses.

There was a Wisconsin booth in the park. The headquarters retreats were welcome to many of the women desiring temporary rest and retirement from the excitement of the day's events.

UNPATRIOTIC THIEF. Some miscreant cut the halcyons on the tall flagstaff in the Long Beach City Park Tuesday night and removed them. The spirit of patriotism would not permit the reception of the ladies without Old Glory floating from the masthead, so President Hatch of the Long Beach Board of Trade employed R. H. Himm, a telephone lineman, to reef new halcyons. With the Stars and Stripes attached Henry W. Lawton Camp of Sons of Veterans hoisted the flag with suitable accompaniment by the band.

BEACH TRIP BREVITIES.

General Passenger Agent E. W. Gillette, Assistant General Passenger Agent T. C. Peck and City Passenger Agent J. L. Moore of the Salt Lake Railway Company were personally on the ground in Long Beach to give attention to the needs of the day's traffic on that company's steel highway.

The Long Beach public schools were closed during the afternoon so that the sessions might not interfere with the entertainment of the visitors.

There were 1500 shell souvenirs distributed among the visiting ladies. The shells, which were daintily suspended

from the necks of the delegates, were of the Long Beach Hotel.

The Long Beach public schools were closed during the afternoon so that the sessions might not interfere with the entertainment of the visitors.

There were 1500 shell souvenirs distributed among the visiting ladies. The shells, which were daintily suspended

from the necks of the delegates, were of the Long Beach Hotel.

There was a Wisconsin booth in the park. The headquarters retreats were welcome to many of the women desiring temporary rest and retirement from the excitement of the day's events.

UNPATRIOTIC THIEF. Some miscreant cut the halcyons on the tall flagstaff in the Long Beach City Park Tuesday night and removed them. The spirit of patriotism would not permit the reception of the ladies without Old Glory floating from the masthead, so President Hatch of the Long Beach Board of Trade employed R. H. Himm, a telephone lineman, to reef new halcyons. With the Stars and Stripes attached Henry W. Lawton Camp of Sons of Veterans hoisted the flag with suitable accompaniment by the band.

Before the man-seeking committee had returned to the parlor car, the difficulty had been adjusted satisfactorily. The woman, when she heard a man coming left the parlor car and transferred to the part of the train that was provided for other passengers, and to come.

AT THE SEASIDE.

ENTERTAINMENT FOR ALL. Old Sol was nearly straight overhead when the elegant train conveying the delegates arrived at Long Beach. A bracing breeze whistled in from Catalina way, and the dancing sea presented to many of the delegates their first view of the broad Pacific.

The Reception Committee, consisting of several hundreds of Long Beach people, was at the station accompanied by the Long Beach Band. The visiting ladies were escorted to the city

open as the headquarters of the Long Beach Hotel. A characteristic legend worked in pink, the Ebbel color, hung over the entrance, and the color scheme was executed in sweet peas and roses.

MODERN AND OLDEN WORKS OF ART.

ARCHITECTURE AND LANDSCAPE
GARDENING DISCUSSED.

Charles F. Lummis Describes and
Pictures Missions and "El Camino
Real"—Fashioning of Beauty from
Wilderness by Nathan F. Barrett.

Wednesday night's art session at Simpson Auditorium was devoted to two arts, which contrasted sharply one with the other—the architectural and the landscape garden.

The papers and the work in Southern California were described by Charles F. Lummis of Los Angeles, while the landscape gardener and the things he has wrought were set forth by one of the most eminent of the profession in this country, Nathan F. Barrett of New Rochelle, N. Y. A crowd of house guests greeted the speakers.

Mrs. Lowe presided and made a pleasing little talk as she opened the evening, to the effect that it was not her house but the speakers who were to be the guests of the evening.

Mrs. A. H. Brockway of New York, chairman of the art session, then introduced Mr. Lummis as the most deeply-versed student of early California history, who was to speak on "El Camino Real." The talk was a most interesting and instructive one.

Taking as his text "El Camino Real, the King's Highway," Mr. Lummis gave in brief description of this much-discussed road of early days, of the coming of Father Junipero Serra to California, the founding of the missions and the achievements of the old Franciscans. He also made reference to the present condition of the unfortunate Mission Indians.

There was in fact a Camino Real, which means king's highway, connecting the California missions," said he.

"But when we speak of a king's highway to our modern vision comes a graded, graveled, curbed, sewerage street, which mistake has caused so many excellent people who entirely lack imagination to claim that the royal road never existed. It was not a highway in this sense. For half a century no wheels ever touched it, and for a long time after that the only wheels it knew were the pine wood wheels of the creaking old carriages. It was a vague trail marked out by the first men who came from civilization into what we are now pleased to term

DISCOMFITURE OF COLORADO CONTINGENT.

NOMINATION OF DENISON TICKET
CAUSES WORRIMENT.

Fear That Mrs. Platt-Decker Will
Reject Support of Friends—Predicted
That Committee's Report Will Be
Adopted as Matter of Course.

Colorado delegates had a bad Wednesday. They were tried sorely when they read in The Times, speaking of the matter yesterday, said:

"This is the third time that Mrs. Platt-Decker has disappointed us. Twice before we could have secured her nomination for the presidency, and she has refused each time. Now we are going to stay in the fight to the end and force the nomination on her. If she refuses the honor we shall stand by her. We are upholding Mrs. Platt-Decker. We are working for Emma A. Hoffman, the 'Idolwild,' was thrown

with yellow ribbons, were of the 'bleeding tooth' variety, and they are said to bring good luck forever. A large number of the delegates remained in Long Beach over night. Probably 400 of them will go to Catalina island this morning.

O. H. Hubbard, husband of the chairman of the Excursion Committee, acted as announcer and enthusiastically megaphoned information through the throng during the day.

General Passenger Agent Gillette of the Salt Lake Railway estimated the number of people who went to Long Beach over that company's road yesterday as between 320 and 400, assuming that the number was 250 and allowing for the number that went on the Southern Pacific, the seaside city had probably over 400 visitors for the day.

Returning to Los Angeles the officers' special left Long Beach at 4:30 o'clock, immediately behind the regular train, and arrived in Los Angeles about 5:30 o'clock. The passengers were highly pleased with their visit at the seaside, and the people of Long Beach to the excursionists who had made the outing possible.

A committee of nearly fifty Long Beach ladies worked Tuesday afternoon to put up the 1200 luncheons which it was expected would be needed. Then came the word that there would be 2000 people to be fed, and the committee spent several hours yesterday morning in completing the desired number.

The feeding was not limited to the delegates, and nearly all of those desiring luncheons were served.

SEASIDE SCENES. Following the refectory, entertainment the visitors as far as was possible were shown about the city, and along the reach of strand. Many tallies and other carriages, lesser capacities were in service. The number of ladies wishing to accept that form of hospitality was rather beyond the means of the Long Beach people.

A novelty for the delegates from the intermountain and Mississippi Valley regions was the trip on the gasoline steamer, J. C. Elliott. The mere act of stepping from the stairway of the solid pier to the deck of the leaving craft was of itself a thing to be told ecstatically at the tea tables of Denison. The trip was made in company with the progressive whist events in Cheyenne.

The actually aboard on the Pacific Ocean with maybe a half mile of the briny beneath was an experience to be treasured in memory for many years. The trips were not long, and the passengers had little time for seasickness.

HEADQUARTERS WELCOMES. The Ohio headquarters were at the Park View Hotel, and were visited by many from the Buckeye State. The rooms were trimmed with callas and greenery.

OFFERINGS OF FOOD PRODUCTS. SEE MARION HARLAND'S "SCHOOL FOR HOUSEWIVES," OPPOSITE PAGE.

RECIPES FOR LOQUATS, GUAVAS AND FIGS.

DELICIOUS THINGS THAT MAY BE MADE OF THEM.

Wash the required number of pounds of figs, pour over them boiling water sufficient to cover completely; set aside till cool, then drain. Make a syrup of an equal amount of sugar, using only water enough to dissolve the sugar, boil and skim; then add the figs and cook till fruit is clear. By boiling them down longer (stirring them frequently) they will crystallize, and are a delicious confection, they can be used in puddings, or eaten.

Take one pound dried figs, place in granite vessel; pour one cup water over and let it simmer until it is in a pulpy state. Take a small box, withdraw all walls and the with core. Pour figs into box and stand until solid; cut cord, leaving it a nice mold. Cut into squares and roll in pulverized sugar. Serve immediately or can.

ment or worse. Purchasing of peddlers is unfair to the grocer, who pays his rent and keeps a stock of all kinds of goods for the convenience of his surrounding customers.

Peddlers who attempt to introduce articles of food are specially dangerous. Some baking powders offered by them have been found to be one-quarter ground flint; others 30 per cent. sulphuric acid! Housekeepers requiring baking powder or other articles of food should obtain it only from a reliable grocer and of a reputable brand which they know to be pure and wholesome. Don't buy from a peddler.

—[Riverside Press.]

LINE OF AUTOMOBILES TO PASADENA.

SCHEME IS TO UTILIZE THAT OLD CYCLE PATH.

Arrangements are Quietly Under Way to This End and Things May Come to a Head Before the Summer Ends—Fast Time to Be Made.

The Pasadena-Los Angeles cycle path, which blossomed forth three years ago and then withered and died, is finally to be a means of rapid transit between the two cities, if present plans do not miscarry. Before the summer passes it will be widened into a smooth toll road for automobiles and will finally be used almost exclusively for a line of autos to run from Los Angeles to Pasadena, carrying passengers for a 10-cent fare.

This rapid transit scheme has been brewing for some time, but has been kept very quiet by the interested parties for several reasons. None of those said to be connected with it will talk for publication, but it is hinted that the reason for not making the scheme public has been the desire to secure a private right of way for the auto line over part of the proposed route. Whether or not this can be done remains to be seen.

The Pasadena-Los Angeles cycle path scheme originated three or four years ago, and the prime mover in it was H. M. Dobbins, a well-known citizen of Pasadena. A picturesque route was laid out for it over half the way from Pasadena, and the line that was biased can still be seen along the face of the hills that mark the eastern side of the Arroyo Seco, near the Ostrich Farm, and even further south. The cycle path was seriously commenced, but only finished for a mile south of the Hotel Green, over the long high trail that connects that place with the Raymond Hotel.

Mr. Dobbins at that time secured, and still owns, a private right of way thirty feet wide from the Hotel Green in Pasadena to the Arroyo Seco, and the five or six miles on the way to this city. This right of way it is proposed to widen to thirty feet. Whether or not a franchise or a private right of way can be secured through this city, and whether either is necessary, are matters yet to be determined. A private right of way will be secured if possible from the southern end of the cycleway, for it will be necessary at that time to be made on the auto line.

Active Work has Been Commenced on the First One, Which Will Be Ready for Use in Sixty Days—Gasoline to Be the Motive Power.

Within the next sixty days the Los Angeles will turn out its first automobile from the factory of a local company, organized to build these machines as a business.

This news may not come as a surprise, for it is the general opinion that any one can build an auto. As a matter of fact, several have been built here, but it is said they are not up to the standard of a practical vehicle, some refusing to back up or reverse, and others to go ahead except at stated intervals, and most of them being clumsy, intricate and costly in operation.

Now comes the newly-incorporated Auto Vehicle Company, with the declaration that it has the real thing in auto, and in pursuance of the belief a strong local company has been organized, and active work has been commenced on the first machine, which will be completed by July 4. The directors of the company are strong financially, and have capital at it at \$250,000, a considerable part of which has been paid in. These directors are F. B. Longyear, president of the California Bank; W. D. Longyear, president of the Security Savings Bank; I. B. Newton, one of the leading spirits in the Harper-Reynolds Company; W. H. Allen, Jr., president of the Title Insurance and Trust Company, and Fred L. Baker of the Baker Iron Works.

The company is to take over four of the principal patents owned by F. B. Hain, formerly manufacturer of the Clipper bicycle at Grand Rapids, Mich., before its plant was sold to the bicycle trust five years ago. Mr. Hain has been in this city some weeks, quietly working in a big ground-floor room at No. 716 North Main street, where the three machines will be made, and where the company's factory will be located until a site for a big plant can be

to go calling Thursday, but you remembered that your husband said that Mr. and Mrs. Smith would be out to dinner that evening. So you remain at home when you might just as well have gone and enjoyed yourself and left the rest to Levy.

Try Main 2184 when you wish to go calling again.

LEVY'S, 111-117 West Third. 263 South Main.

Chalmers' Granulated Gelatine

None equals it. Made by a new process. Whiter and purer gelatine in the world. Every packet guaranteed to make fully two (2) quarts of the finest and purest jelly.

Sherwood & Sherwood, Western Agents, 216 N. MAIN ST., Tel. James 1131, LOS ANGELES, Portland

THE ORIGINAL BIG CAN. ALL GROCERS.

gramme will consist of music, recitations and impersonations by W. Wright.

Invitations are out for a party in honor of the second year preparatory class by James McClung and Bruce Merrill Friday evening at the home of Mr. Merrill, No. 5223 Pasadena avenue.

TWO REALTY SALES.
